Authorities say a Pensacola teenager was critically injured when she ran a stop sign and collided with an Escambia County school bus. The Florida Highway Patrol reports that 18-year-old Shacavia M. Sneed was taken to a nearby hospital after Monday morning's crash. The front of the bus hit the driver's side of the teen's four-door car. The crash spun Sneed's car into a sport utility vehicle parked nearby. FHP says the bus swerved and hit a utility pole. The driver suffered minor injuries, but the seven children on board were not hurt. Sneed was cited for failing to stop at a stop sign.
